ANNUAL REPORT OF THE AUDITOR OF THE
STATE OF NORTH CAROLINA FOR THE FISCAL
YEAR ENDING NOVEMBER 30TH, 1884.

STATE OF NORTH CAROLINA,
AUDITOR'S DEPARTMENT,
Raleigh, December 1st, 1884.

His Excellency, THOMAS J. JARVIS,
Governor of North Carolina:

DEAR SIR:—I have the honor herewith to submit for your information, and transmittal to the General Assembly, the Annual Report of this Department for the fiscal year ending November 30, 1884. You will observe that Statement E gives the several sources from which the public fund receipts are derived, and which are larger this year than usual, by reason of the fact that on the 1st day of May last the authorities of the Western North Carolina Railroad paid into the State Treasury the sum of \$600,000, as provided in chapter 241, Laws 1883, it being "An Act to amend an Act to provide for the sale of the State's interest in the Western North Carolina Railroad Company, and for other purposes."

These receipts foot up \$1,436,775.66, but are subject to these items of deduction, viz.:

1st. \$40,000 received from the license tax on fertilizers, which is for the exclusive use of the Agricultural Department and is not a part of the revenues of the State government. However, it is chargeable to the State Treasurer, as the law requires

that officer to issue these licenses and apply the amount so received to the use of said Agricultural Department.

2d., Dividends accruing to the State on account of its stock in the North Carolina Railroad Company, amounting to \$123.120, and also a part of the public fund receipts, and the law requires the Treasurer to apply such dividends to the payment of the interest on bonds issued by the State on account of the North Carolina Railroad and renewed under Act March 14th, 1877.

3d. \$10,000 received from the sale of the old Governor's Mansion, applicable to the construction of the new Mansion.

4th. Reference is also made to item \$105, "Interest on mortgage bonds Western North Carolina Railroad." This sum was paid into the Treasury by the authorities of said railroad to reimburse the Treasurer for excess of coupons paid on mortgage bonds of said company. These four items referred to, to-wit: \$40,000 on fertilizers, \$123,120 dividends on North Carolina Railroad stock, \$10,000 from the sale of the Governor's Mansion, and \$105, "Interest on mortgage bonds Western North Carolina Railroad," aggregating \$173,225, being deducted from \$1,436,775.66 receipts reported, leaves \$1,263,550.66 as the legitimate receipts applicable to the support of the State government proper, and to the support of the charitable and penal institutions.

Your attention is also directed to Statement F, which shows the different purposes for which the public fund disbursements are made. The disbursements amount to \$785,641.78, but this amount is subject to a deduction of \$40,000 on account of the Agricultural Department, \$125,700 interest of renewal bonds of the North Carolina Railroad, as before explained, and which constitute a part of the Treasurer's disbursements, \$10,948 on account of Executive Mansion, and \$13,700 on account of construction of railroad from Statesville to Taylorsville. These items aggregate \$190,348, and being deducted from the total disbursements, \$785,641.78, leaves \$595,293.78 as the legitimate expenditures provided for the ordinary revenues of the State.

The estimated expenditures of the State government, which I am required by law to submit to the General Assembly, based

upon the expenditures of the two previous years, and for which taxes must be levied and collected, will be about \$590,000 annually, and are itemized as follows, to-wit:

General Assembly, per diem and mileage	\$ 57,000
Executive or State Departments	25,000
Judiciary	38,000
General expenses not provided for by special appropriation, including public printing, pensions to maimed ex-Confederate soldiers, conveying convicts to the Penitentiary, contingencies, &c... ..	60,000
Penitentiary	75,000
University of North Carolina	12,500
Orphan Asylum (Oxford)	5,000
Normal Schools	8,000
Institution for the Deaf and Dumb and the Blind	36,000
State Guard	3,750
North Carolina Insane Asylum (support)	58,000
Western North Carolina Insane Asylum (support)	40,000
“ “ “ “ “ const. acc’t....	35,000
Eastern “ “ “ “ (support)	25,000
Interest on four per cent. consolidated bonds now outstanding	112,000
<hr/>	
Total estimates	\$590,250

Now, to meet these expenditures the Treasurer had on hand at the close of the fiscal year \$926,086.98, and to this amount must be added the taxes (estimated) accruing to the State from Schedules B and C (unlisted taxes), which will net for the two years \$160,000; also, taxes from all other sources, which will make \$180,000 additional. These amounts, \$926,086.98 on hand, \$180,000 B and C Schedule and \$180,000 from other sources aggregate \$1,266,086.98, which appears to make a sum sufficient for the ordinary expenses of the State government. But in order that the Treasurer may be able, without embarrassment, to meet expenses on account of the possible aggregate increase of appro-

priations, I submit that as the assessed value of property is about \$200,000,000 that a levy of ten cents on every one hundred dollars value of property, for the year 1885, in addition to the estimated revenues from other sources named above, will be sufficient for all legitimate purposes.

I see no reason why the State should collect from its people large sums of money, in the shape of taxes, when the condition of the State Treasury does not require it. But as the Treasury should be provided against any embarrassment resulting from any possible diminution of revenue from licenses, &c., I recommend the above basis of taxation, because it will, in my judgment, afford abundant revenue for all State purposes and at the same time give material relief to our tax-paying people.

In conclusion, I respectfully recommend that the tax levy be so adjusted that at the close of each fiscal year the cash balance in the hands of Treasurer should not be excessively large.

Below I append a note in regard to certain fees which are collected by the Attorney-General and disbursed by him, and which are fully explained in said note.

I am, very respectfully,

Your obedient servant,

W. P. ROBERTS,

Auditor.

NOTE.—The Attorney-General reports the amount of fees received from defendants convicted in State cases in the Supreme Court to be on an average of one hundred dollars each term of the Court, which is appropriated by Sections 3728 and 3729 of The Code for clerical assistance in the preparation of the Supreme Court Reports.

ANNUAL REPORT
OF THE
AUDITOR OF THE STATE
OF
NORTH CAROLINA,
FOR THE
FISCAL YEAR ENDING NOVEMBER 30, 1885.

DOCUMENT No. 5.]

[SESSION 1887.

Ordered to be Printed.

P. M. HALE, STATE PRINTER AND BINDER.

ANNUAL REPORT OF THE AUDITOR OF THE
STATE OF NORTH CAROLINA, FOR THE FIS-
CAL YEAR ENDING NOVEMBER 30, 1885.

STATE OF NORTH CAROLINA,
AUDITOR'S DEPARTMENT,
Raleigh, Dec. 1st, 1885.

His Excellency, ALFRED M. SCALES,
Governor of North Carolina :

DEAR SIR:—In compliance with the provisions of section 3350 of The Code, I have the honor to submit herewith for your information, and transmittal to the next General Assembly, the Annual Report of this Department, showing a statement of the funds of the State, and of its revenues and public expenditures for the fiscal year ending November 30th, 1885, arranged and classified under the head of "Statements" indicated by letters.

Your attention is directed to statements E (receipts) and F (disbursements), with explanatory foot-notes to each.

The annual appropriation (\$30,000) made by the General Assembly for the relief of Confederate soldiers, &c., under an act ratified the 11th of March, 1885, the most of which has been apportioned, *pro rata*, to over 2,000 applicants, should have come within the year's disbursements, but as warrants to cover same were issued November 30, the close of the fiscal year, and

too late to be presented for payment, they are now outstanding against the Treasurer, and will be accounted for in the disbursement account the coming year. Of this appropriation, there is now remaining an unexpended balance—a fraction over two hundred dollars—which was reserved by the Board to meet extreme cases, both of soldiers and widows, whose claims could not be adjudicated before the close of the year on account of the absence of certain required proofs.

There were over 4,200 pension applicants, and the claims of more than 2,000 of these were disallowed, as they did not come within the meaning of the statute—the Board holding that to entitle applicants to the provisions of the act, the soldier must be disabled by reason of wounds received, and the widow by reason of the death of her husband from wounds. Many of these claimants, both soldiers and the widows of soldiers, are meritorious and deserve aid from the State, and to this end their claims have been filed for the action of the Legislature.

Your attention is directed to the statute which provides that all moneys paid out by the Treasurer shall be paid upon the warrant of the Auditor, and Art. 14, section 3, of the Constitution of the State provides that “no money shall be drawn from the treasury, but in consequence of appropriations made by law,” &c. I believe the Constitution should be strictly construed, and it has been suggested that it intended that warrants should be drawn on the treasury only to pay claims for which specific appropriations have been made, but it has been and is still the custom to issue warrants for claims arising under the laws directing certain work to be done for the State and providing methods for ascertainment of its value before the issue of a warrant. I beg, therefore, you will call the attention of the Legislature to the matter to the end that the law may be amended, if the suggested construction be correct.

I am, very respectfully,

Your obedient servant,

W. P. ROBERTS,

Auditor.

NOTE.—The receipts above enumerated foot up \$378,957.62, and are subject to three items of deduction ;

1st. \$41,500 accruing from the license tax on fertilizers, which is set apart by statute for the exclusive use of the Agricultural Department, and is no part of the State's revenues. It is chargeable, however, to State Treasurer, and although not audited by me, as in the case of other State institutions, the tax is paid into the treasury through this department, and the whole amount received applied by the Treasurer to the use of said Agricultural Department.

2nd. It will be remembered that the law requires the Treasurer to apply the dividends accruing to the State on account of its stock in the North Carolina Railroad Company to the payment of the interest on the bonds issued by the State on account of said Railroad. These dividends amount to \$125,646, and are a part of the public fund receipts.

3rd. \$50 received from sale of lot (Governor's Mansion) belongs to the fund for construction of "Governor's House." These items, to-wit, \$41,500 on fertilizers, \$125,646 dividends North Carolina Railroad stock, and \$50 for sale of lot (Governor's Mansion), aggregate \$167,196, and should be deducted from \$378,957.62, total receipts shown above, which will leave a total of public taxes collected for the support of State government and charitable and penal institutions \$211,761.62 proper, exclusive of the taxes collected from professions, trades, incomes, &c., which the law requires shall be invested in the consolidated bonds of the State, or applied to the payment of interest thereon.

No taxes for State purposes were computed on real and personal property on the tax lists for the year 1884, by reason of the fact that on the first day of May of that year the authorities of the Western North Carolina Railroad paid into the State Treasury the sum of \$600,000, as provided in Chapter 241, Laws 1883. (See Chap. 136., Sec. 52, Laws 1883).

NOTE.—The disbursements amount to \$795,486.26, but are subject to the following items of deduction, to-wit: \$41,500 on account of Agricultural Department, \$78,240 interest on dividends North Carolina Railroad, as above explained, and which constitutes a part of the Treasurer's disbursements, and \$50 for construction of a railroad from Statesville to Taylorsville. These items foot up \$119,790, and should be deducted from total disbursements, \$795,486.26, which will leave \$675,696.26 as legitimate expenditures provided for the support of the State government and penal and charitable institutions.

There are now outstanding against the Treasurer warrants amounting to \$29,765.50, on account of the appropriation (\$30,000) made by the General Assembly for the relief of Confederate soldiers, &c., under an Act ratified the 11th day of March, 1885. These warrants should have come within the year's disbursements, but as they were issued November 30, close of fiscal year, and too late for presentation for payment, they will be chargeable to the disbursement account for the coming year.

[Session 1887.

P. M. HALE, State Printer and Binder.

ANNUAL REPORT OF THE AUDITOR OF THE
STATE OF NORTH CAROLINA FOR THE FISCAL
YEAR ENDING NOVEMBER 30TH, 1886.

STATE OF NORTH CAROLINA,
AUDITOR'S DEPARTMENT,
Raleigh, December 1st, 1886.

His Excellency, ALFRED M. SCALES,
Governor of North Carolina:

SIR:—In compliance with the statute, I have the honor to conform to an established custom, and hand you herewith for your information and transmittal to the General Assembly, the Annual Report of this Department, showing the receipts and disbursements of the revenues of the State for the fiscal year ending November 30, 1886, arranged and classified under the head of "Statements," represented by letters. I especially invite your attention to Statements E and F, with explanatory foot notes.

In this respect, inasmuch as the absolute superintendence of the fiscal concerns of the State is, in peremptory language, required of the Auditor, by the provisions of Section 3350 of The Code, enacted in pursuance of Article 3, Section 13, of the Constitution, I venture the following suggestions with regard to certain matters which, in my opinion, demand legislative attention:

1st. Sub-section 13 of Section 3350 of The Code makes it the duty of the Auditor "to countersign and enter all checks drawn by the Treasurer;" and Section 3355 provides that "the Treasurer shall not draw, nor shall such banks pay, any moneys

on account of the Treasury, except by checks subscribed by him as Treasurer, and countersigned by the Auditor."

Since the Treasurer can only draw his check upon the warrant of the Auditor, duly entered in his office, a mere reference in his check to the number of the warrant by virtue of which it was drawn would seem to be all which should be required, and quite as sufficient a safeguard as that provided in the clause above quoted, to say nothing of the book-keeping, inconvenience and risk thereby saved to the two offices and to the banks.

2d. By Sub-section 13, already referred to, it is likewise made the duty of the Auditor "to countersign and enter * * * all receipts for money paid to the Treasurer, and no such receipt shall be evidence of payment unless so countersigned."

It might frequently happen that persons wishing to take out "The Drummer's License," or the License to sell Fertilizers, would apply to the Treasurer at a time when the Auditor would be unavoidably absent, and unable to sign the Treasurer's receipt: all the difficulties and the duties of both officers might easily be met, by requiring the applicant for such license to present the Treasurer's receipt, for the amount paid in, at the Auditor's office and obtain therefrom the license applied for.

3d. Article 14, Section 3, of the Constitution provides "that no money shall be drawn from the Treasury but in consequence of appropriations made by law." This would seem to imply, that a specific appropriation must be made by the General Assembly sufficient in terms to embrace each and every disbursement. Acknowledging the impossibility of foreseeing and providing for every small expenditure of public money, yet I can not but think that the clause of the Constitution, just above quoted, enjoins on the General Assembly the duty of specific appropriation so far as possible; and in case where classification is either impossible or excessively difficult, a provision that the disbursement shall be made from any funds in the Treasury not otherwise appropriated would relieve the Auditor's office of responsibility and risk.

A difficulty which has arisen in my office during the current year compels me to again press the matter upon the attention of your Excellency with more urgency than I otherwise would. The Public Printer presented to me a bill for work done for the Agricultural Department. I was of the opinion that the law contemplated the payment of the bill by that department, but the Public Printer was of the opinion that it should be paid out of the General Fund. The question presented to my mind so grave a doubt that I felt compelled to submit it to the Attorney General.

The opinion of the Attorney General was that "all accounts for such printing should be 'charged' for, 'approved' and 'audited' as provided in Sections 3622 and 3623 (Chap. 52, vol. 2), of The Code."

A warrant to cover this bill was issued, which the Treasurer paid out of the General Fund, but that officer informs me that it was collected by him from the Agricultural Department, and the General Fund was thus reimbursed.

The annual appropriation made by the General Assembly for the relief of Confederate soldiers, &c., under an Act ratified the 11th day of March, 1885, has been apportioned and distributed, pro rata, to 2,127 claimants, of which number 1,030 are soldiers and 1,097 are the widows of deceased soldiers. The whole number of applicants, however, under the Act aggregate 4,391, and it will be seen that 2,264 of these claims were rejected by the State Board, consisting of the Governor, Attorney General and Auditor, it holding that under the statute they were not entitled to share in the appropriation; but these claims are on file in this office for such action as the General Assembly may see fit to take.

In this connection, I will say that the State Board has had difficulty in understanding, from the wording of the statute, whether the widows of soldiers who died from natural causes are entitled to the benefits of the appropriation.

If this uncertainty could be removed by additional legislation, it would relieve the Board at once.

It is not customary for the Auditor to submit to the General Assembly estimates of future expenditures, but the Treasurer has submitted to me his estimates for the next two years, based upon expenditures of the last two years; also his recommendation as to the rate of taxation necessary for ordinary purposes, both of which I substantially endorse.

The latest returns received at this office show the assessed value of real and personal property to be, in round numbers, \$202,000,000, and a levy of *twenty-three* cents on every hundred dollars' value of property, in addition to the revenues derived from other sources, would seem to be sufficient for all legitimate purposes, provided, however, there is no considerable increase of aggregate appropriations.

I am, very respectfully,

Your obedient servant,

W. P. ROBERTS,

Auditor.

NOTE.—The latest assessed value of real and personal property of the State, by counties, will be found by reference to the addenda, on page 285.
